© 2002-2005 SEIKO WATCH CORPORATION

- FEATURES**
- SEIKO YTO2A is a battery charger to charge SEIKO KINETIC watches from an external power source.
 - It is used to recharge the watch when it is discharged.
 - The position of the crown for each model is shown by illustration for the best positioning of the watch for charging.
 - Equipped with timer function to prevent the charger from automatically after a certain time of operation (for 30 minutes or 3 hours and a half).

- PRECAUTIONS**
- WARNING**
1. Use only SEIKO AD Adapter Model YTO2A.
 - Use of other AD adapters may result in overheating of the watch.
 - Do not disassemble. It may cause malfunctions or electric shocks.

- CAUTION**
1. Do not use SEIKO YTO2A for any other purpose than charging SEIKO KINETIC watches.
 - Follow the directions for use written in this instruction manual.
 - Use the unit and the SEIKO AD Adapter indoors only. Outdoor use is not permitted.
 - Disconnect the AC plug from the AC receptacle after each use.
 - In case any features or malfunctions are observed, immediately discontinue using the charger and pull out the AC plug.

■ BUTTONS & OPERATIONS

- BEFORE CHARGING**
1. Put the watch onto the plate. Do not set it on a plastic surface, as the watch cannot be set properly on such a surface.
 2. Connect the AC cord to the AC adapter, and then put the adapter plug into the IEC jack of the unit.
 3. Insert the AC plug into the AC receptacle.
 4. Set the timer to either "30 min." or "3 h & 30 min." Refer to HOW TO SET THE TIMER.

- HOW TO CHARGE**
1. Check the number of the SEIKO KINETIC watch which is to be charged.
 2. Put the watch face downward to the center of the watch setting position.
 3. Set the crown to the crown position illustrated on the top of the unit. Be sure to set the crown to the correct crown position according to the crown number you checked in the above procedure 1.
 4. Press the START button.
 5. After the timer of operation you set to stop, the charger shuts off automatically. If the START button is pressed while charging, the charger starts working again from the beginning.
 6. To turn off the charger manually, pull the AC plug out of the receptacle.

- NOTICE ON CHARGING**
- The charger may make a pulsing noise while charging, however, it is not a malfunction.
 - The watch body may heat up while charging, however, it does not affect the functions of the watch.
 - Be careful with the temperature of the watch, when handling the watch to the surfaces.

- HOW TO SET THE TIMER**
- This charger is designed to charge SEIKO KINETIC watches, which already run down. Usually set the timer to "30 min." (for approximately 30 minutes), which is long enough to charge SEIKO KINETIC watches so that they resume their normal operation movement in one seasonal interval.
 - The 3 h & 30 min timer (for approximately 3 hours and a half) can be utilized especially when charging several SEIKO KINETIC watches successively or when supplying more energy.

APPROXIMATE CHARGING TIME FOR EACH MODEL
(The data shown below is only approximate. The charging time will be different depending on each model.)

| Model | Charged enough for 1 use (approximate) | Fully charged ** |
|-------------|--|------------------|
| 5645 series | 45 min. | 3 hrs. |
| 5644 series | 30 min. | 2 hrs. |
| 5643 series | 30 min. | 2 hrs. |
| 575 series | 45 min. | 3 hrs. |

* The approximate charging time required for a watch which has already run down to resume its normal operational movement in one seasonal interval. (The state that the watch can be worn under normal conditions.)
** The approximate charging time required for a watch which has already run down to be fully charged.
